

WinMt Etic

With WinMt Etic, it's possible to print in a normal A4 sheet, different size coloured labels with name of the prize, points for the prize, bar code, etc. There are two standard sizes: 78x46 or 99x34 mm for special adhesive A4 sheets. There is a great choice of frames in colours and shapes. It's also possible to create labels with dedicated dimension and different coloured frames.

The WinMt Etic works in conjunction of Galileo Management Kit so, it's possible to print the labels of the delivered prizes, using the same "prize file".
